

Ideal for total health systems support

## Interim staffing

Ideal works exclusively in the healthcare sector and have supported numerous Trusts with the provision of experienced, professional interim staff to ensure they have sufficient staffing capacity to meet the requirements of their projects.

### Experienced professionals

Ideal has the UK's largest team of health professionals experienced in a broad spectrum of healthcare settings.

The experience of our team covers a wide range of systems including:

- Cerner Millennium
- RiO
- TPP
- iSoft
- PACS and many more

### Maximum flexibility

Our scalable, timely and highly cost effective staffing solutions afford our clients maximum flexibility, whilst

reducing the risks of maintaining the high overhead costs of permanent staff.

This is particularly important if projects are delayed or when specific staff are only required for the length of the project.

### Meeting client needs

Our extensive experience and knowledge of health systems enables us to accurately identify our client's needs.

We can supply the appropriate staff, with the relevant experience, when and where required.

### Staff selection

All of our team has been carefully vetted and selected through our strict recruitment process.

This involves assessing the candidate's previous experience, technical ability, communication skills and overall suitability. Our assessment process naturally includes taking up references and CRB clearance.

### Staff provided by Ideal

Our team of health professionals include staff who can work with you in the following roles:

- Programme managers
- Project managers
- Change managers
- Trainers
- Testers
- Back office support staff
- Data migration specialists
- Data entry staff
- Floor walkers
